-2- About a year ago, we consecrated the South Africa North First Principals Chapter No. 8288. This Chapter is fulfilling its purpose as a service Chapter within the District. I thank my Deputy for serving as the Preceptor of this important Chapter. This Chapter was consecrated and is anchored to the Transvaal District Grand Stewards' Lodge, whose number it bears. Indeed the Chapter has similar aims and objectives to Stewards' Lodge and has had an extremely active year assisting in Exaltations and Installation Ceremonies as well as delivering lectures. Lectures are being given to Royal Arch Chapters which encompass the Historical and Symbolical aspects of the ritual and the furniture and layout of the Chapter, so the Royal Arch Ceremony may be better understood and enjoyed. One of the recent developments to improve the understanding of our ritual is the issuing of a narration to all Royal Arch Chapters, to be presented at all exaltation ceremonies. This narration called "Setting the Scene" is based on a similar narration produced by the Provincial Grand Chapter of Cumberland and Westmoreland . It is a series of brief, clear and concise narratives, well written and easy to understand, given at clear breaks in the ceremony, starting with a brief outline to the Candidate outside. I thank E Comp Tim Smith for sourcing and adapting this narrative. I think with a better understanding of our ceremonies, in particular the story of the exaltation ceremony as it unfolds, will lead to far better retention of Members. Members of First Principals' Chapter have another important role and that is to lead the way in presenting more lectures about the Royal Arch in Craft Lodges. I am not suggesting that the First Principal's members hold a monopoly on this. In fact, there are many senior Royal Arch members who can perform this important function of presenting a talk on the Royal Arch in their Craft Lodge. I believe, it is important that our younger Craft Masons, the Entered Apprentices, Fellow Crafts and Master Masons are made fully aware of the close association of the Royal Arch and Craft in our Constitution. After all, on being initiated they should receive a copy of the Book of Constitutions and the first words they should read is the preamble to the Constitutions – "That Pure Ancient Freemasonry consists of three degrees and no more, viz. The Entered Apprentice, the Fellow Craft and the Master Mason including the Supreme Order of the Holy Royal Arch". I call on all of you to be pro-active in your own Craft Lodges and ensure that every Master Mason is brought into the Royal Arch as soon as possible. Companions, several years ago a directive was issued from the Grand Secretary who is the Grand Scribe Ezra, that each Craft Lodge should appoint a Royal Arch Representative and an item should appear on the agenda of Craft Lodges to receive a report on Royal Arch matters. Companions, I urge you to see that this is implemented. In conclusion Companions, I would like to thank the District Grand Directors of Ceremonies, E Comp Vaughn Williams and his team for the Ceremony today. In addition, sincere thanks are extended to District Grand Scribe Ezra, E Comp David Pickard, together with Mrs Fern Rowles and the administrative staff, here at Park Lane. I thank E Comp Graeme MacKenzie, Chairman of the Organising Committee and members of his committee and the substantial work of E Comp David Whitfield in organising seating, ticketing and printing, together with work carried out by E Comp David Johnston. I look forward to seeing you all at the Craft meeting later this afternoon. E Comp Prof E Guy Charlesworth Grand Superintendent, 3 October 2015

tion, a little bit of internet access and–everything that reaches Americans– and the cable guys will have the power increase charges as they already do if you sign up for their naked Internet access. They'll charge somewhat less if you take their TV services as well. And they will make the non cable version of anything quite unattractive. This is a tremendous policy issue for the country. Comcast which is the nation's largest Internet provider, the nation's third-largest phone company and the largest cable provider, wants to swallow up one of the five remaining oligopolies that provide content in this country as a result of which they will control a huge chunk of viewing hours.

Nel suo primo parere interamente dedicato a questo tema, il CESE raccomanda inoltre che sia l'UE che gli Stati membri s'impegnino fortemente per rendere più semplice la realizzazione di attività filantropiche transfrontaliere. Il Comitato, tuttavia, sottolinea che la filantropia non può sostituirsi allo Stato sociale e a solidi sistemi di protezione sociale basati sulla giustizia fiscale e su politiche occupazionali efficaci. Questi, anzi, dovrebbero essere rafforzati e ulteriormente sviluppati, il che consentirebbe anche di migliorare la capacità delle organizzazioni filantropiche di "colmarne le lacune" e di integrare i finanziamenti nei settori di nicchia in cui il sostegno pubblico manca o è insufficiente. "Riconosciamo pienamente la complementarità e il valore aggiunto innovativo che la filantropia può apportare alla coesione sociale promuovendo valori comuni e rendendo la nostra società più resiliente", ha dichiarato il relatore del parere Petru Sorin Dandea, sottolineando che le iniziative filantropiche dovrebbero continuare ad essere trasparenti e che tale trasparenza dovrebbe essere promossa da misure di sicurezza nazionali e a livello dell'UE. I dati mostrano che in Europa, negli ultimi tre decenni, le donazioni filantropiche sono aumentate rapidamente, con contributi che, in base a una stima prudente, ammontano ad

This too is all by design to force people into using browsers that are heavily monitored by both Microsoft and Google. I say this because the new HTML 5 and the latest CSS 3 are both designed to snoop on anyone visiting a page that is written or conforms to the new code. Of course a savvy page coder can prevent the snooping by having their code sourced to locally uploaded apps and scripts. Every server has a system in place that records what machine address has visited or accessed what page, scripts, and content posted on that server. The new CSS 3 tries to get coders to access scripts that are on the CSS servers (w3.org). By doing this the CSS folks have access to a seriously large data base of machine addresses. I can only guess this information is primarily for gathering advertising resources. But the uses can be endless and may even be used as individual behavioral analysis.

Settler Colonialism and Reclamation One response to tribes' contemporary efforts to assert their Winters rights is to see them as untimely efforts to unsettle what are already precarious and overburdened schemes of allocation. Another way, if we take the CRIT story seriously, is to see that the history of non-Indian settlement of the West is hopelessly intertwined with tribal histories, and in particular the federal government's bi-polar approach of, on one hand, attempting to coerce tribes to use the land in ways that would settle their claims and make them fit into the mythical (and quixotic) "yeoman farmer of the desert" mold, and on the other, threatening them with divestment of those same lands (and accompanying rights to water), if they did not occupy them densely enough. In short, instead of punishing tribes for being "Johnny-come-lately" to our water allocation schemes, stakeholders could see tribes as equals, coming to the table as governments finally able to assert their interests after decades of attempts to marginalize them.
